

# Competition Management – Player Injuries

**IMPORTANT:** Player Injuries has moved to ‘Injuries/ Incident Management’ in April 2017. There is now a new screen to enter player injuries.

This Rugby Link self-help guide explains how Clubs can enter their OWN player injuries into Rugby Link. Clubs must select the individual player from their own team and classify the injury as ‘serious’ or ‘concussion’.

The Injury Detail Report, available at Club level, will only show Club injuries that have entered against the fixture.

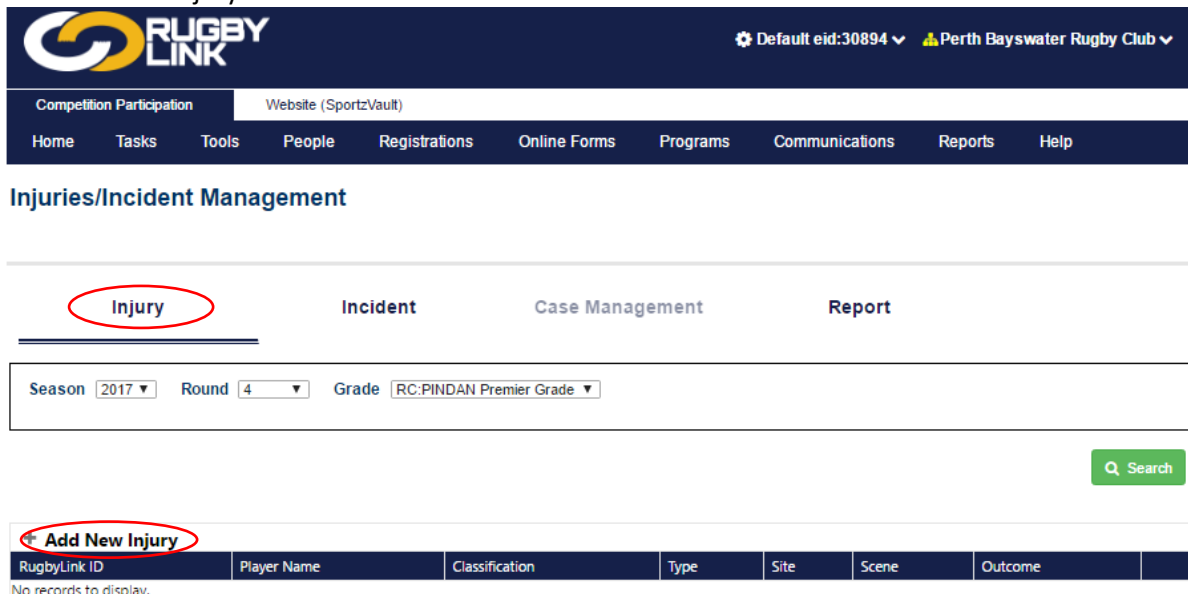

**NOTE:** Teams must be selected in Rugby Link prior to adding Player Injuries.
